

About JustScan

Justscan Ltd was established in 1996 to develop a unique scanning solution with one essential goal, to increase profitability for the modern retailer. All our solutions are developed in Ireland for Irish retailers with hundreds of users successfully using Justscan solutions throughout the country.

Justscan are retailing specialists providing solutions and technologies that deliver everything necessary to be a successful retailer. Our solutions have been designed with the help of experienced retailers using state of the art technology and can be tailored to the particular requirements of your business.

Justscan solutions are available in multiple configurations to suit your business including single unit, multi unit, back-office and multi branch as well as a range of hardware options.

Full training is provided, along with comprehensive maintenance and support packages to protect your investment.

Justscan has formed an award winning management team with extensive experience in tailoring and implementing retail scanning barcode solutions to satisfy unique client requirements.

Retail Scanning Specialists

Selling made easy

Our user interface has been designed to be intuitive to the user, to save time and effort by being flexible and to require minimal interaction. Our easy to read point of sale screen allows you to complete your day-to-day transaction quickly and efficiently and provides access to all other functions necessary to run your business.

Ease of use does not mean a basic system; the Justscan system boasts a comprehensive range of features to aid the efficient running of your business.

Ordering made simple

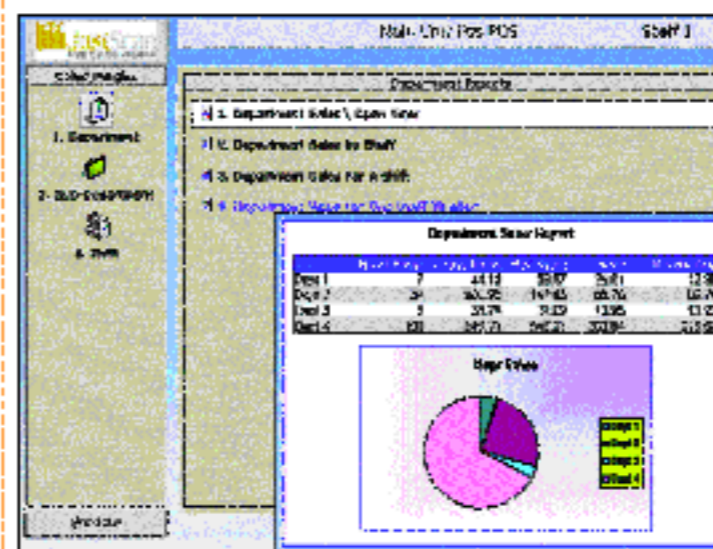

The Justscan solution intuitively calculates stock requirements based on past sales and current stock levels.

You can generate an order for a supplier in a number of different ways:

- The traditional way, hand picking your order
- Based on past sales and current stock levels
- Handheld assisted

Orders can easily be converted into deliveries and prices and stock levels are automatically updated on receipt of delivery.

Information through Reports

The strength of any decision lies in a combination of the quality of the information available and the skills and experience of the people making the decision. Obtain the critical information you need to maximise your profitability.

Any system can provide a thousand reports. That just makes your life more difficult. The Justscan solution provides the actionable information you need to make real business decisions including analysis by

- Department/Sub Department/Item
- Staff Member
- Customer
- Supplier

The end result offers comprehensive and accurate, margin analysis, stock analysis and security trails.
