

Justscan systems are used successfully by retail businesses across a range of sectors including

- Convenience • Hardware • Newsagents • Paint & Décor • Music • Arts & Crafts
- Off Licence • Cycle • Photo • Jewellery • Forecourt • Carpet/Flooring
- Bookshop • Nursery • Pharmacy • Furniture • Health Food • Giftware

What our clients say

"At the end of the week it's just a matter of touching a button and all the information I need is there. Once I input my cost prices the margins are bang on. The Justscan credit customer facility is way handier and gone are the hours spent with the credit book"

John Leogue Leogue's Foodstore & Filling Station

"Justscan has a great many facilities, it caters for all sides of the business, wet & dry. It even helps me to roster staff. With Justscan I have full control and because everything scans I know the price is right. If ever we have a technical problem one of the Justscan team is available to sort us out"

PJ McGoldrick Sligo Gate Mace & Forecourt

"Having worked two other systems, Justscan is the best. It handles Sales with no fuss, and handles Back Office brilliantly. It's good for analysis of margins, and sales are broken down item by item. Installing the Justscan system was the best thing we ever did"

Peter Gleeson Home world Department Store

"We think the Justscan system is brilliant. When we were looking at various systems, it was the simplest one to operate. I carry a very wide range of products, all of which Justscan handles brilliantly. I purchased the touch screen version which my staff and myself find easy to use"

Stephen Leonard Leonard's Hardware

"In a 12 month period the unit has paid for itself plus 50% and has greatly improved our cash flow. The big thing is reviewing our daily sales and being able to produce suggested orders to deal with reps. Before this, gaps would appear on the shelves, with at least 3 items per day running out"

Des Treacy Treacy's Pharmacy

"It was faster than our existing Epos system, simpler to set-up and maintain items, and was based on the latest windows and touch screen technology. It also gave me the information I wanted from the reports. In my opinion, it is the most powerful Epos solution on the market in Ireland for Pharmacists and I'm confident it will remain so as it is being continually enhanced"

Mike Guckian Mulreany's Pharmacy
